Professional Summary

Software Engineering undergraduate seeking a Software Development or QA internship. Completed a Higher Diploma in Software Engineering at ICBT Kandy (results pending) and progressing to a top-up degree. Hands-on experience building academic web, mobile and desktop projects, with a strong foundation in OOP, databases, system analysis and design, and software testing. Keen to apply these skills in a professional team and gain real industry experience.

Education

Higher Diploma in Software Engineering | International College of Business and Technology (ICBT), Kandy | 2025 - 2026

- Results: Awaiting results
- Relevant modules: Web Application Development, Mobile Application Development, Computing Project, Service Oriented Programming, Object Oriented Programming, Project Management, Fundamentals in Programming, System Analysis and Design.

Diploma in Information and Communication Technology, ICBT Kandy | Jun 2024 - Dec 2024

- Gained foundational knowledge in software development, database management, web development, programming and IT fundamentals through practical coursework and projects.

G.C.E. Ordinary Level, Greenhill International School, Kandy | 2023 (2024)

Technical Skills

- **Programming Languages:** C++, Java, JavaScript, PHP, Python, C#
- **Web Development:** HTML, CSS, JavaScript, PHP, React, Node.js
- **Mobile Development:** Android Studio, Java, SQLite
- **Databases:** MySQL, SQLite, SQL, MongoDB, PostgreSQL
- **Software Concepts:** OOP, SDLC, system analysis and design, structured programming
- **Testing and QA:** Manual testing, test case design, functional testing, regression testing, smoke testing, bug reporting, defect life cycle, severity and priority
- **Tools:** GitHub, Git, VS Code, Android Studio, XAMPP, draw.io, Figma, R Studio

Projects

LifeLink SL: Blood and Organ Donation Coordination System (Final Group Project) | PHP, MySQL, HTML, CSS, JavaScript

Developed an academic prototype for coordinating blood and organ donation between government hospitals and registered volunteer donors.

- Designed donor matching, notifications, emergency coordination, referrals, QR verification, reporting and role-based access.
- Applied security and privacy concepts including authentication, MFA, account lockout, CSRF protection, consent-aware sharing and audit logging.
- My role: frontend developer, tester and documentation support in a team of 2

PAWTRACE: Lost and Found Pet Tracking Platform | React, TypeScript, Tailwind CSS, Node.js, Express.js, PostgreSQL

- Developing a full-stack web application to help reunite lost pets with their owners through pet reports and location-based tracking.
- Building RESTful APIs and integrating PostgreSQL for persistent data storage and report management.
- Implementing pet photo uploads, interactive maps, and location-based features to improve pet discovery and recovery.
- Using Git and GitHub for version control, with integration testing to verify frontend–backend functionality.

KMC City Event Management Platform | C#, ASP.NET Core Web API, ASP.NET Core MVC, Entity Framework Core, SQL Server, JWT

- Developed a service-oriented event management platform for Kandy Municipal Council to publish, search, and manage events through a centralized system.
- Implemented RESTful APIs, JWT-based authentication, and role-based authorization for secure access.
- Built event management and participant registration features, including duplicate registration and capacity validation.
- Integrated SQL Server using Entity Framework Core and developed an MVC client to interact with the API.
- Documented and tested API endpoints using Scalar API Reference.

GlobeTrek Adventures Website | PHP, MySQL, HTML, CSS, JavaScript

- Developed a travel management website supporting travel packages, bookings and custom plans, with customer, staff and admin dashboards.
- Implemented a responsive web interface and database-backed functionality.

PrintXpress Mobile App | Java, Android Studio, SQLite | [GitHub link]

- Developed a native Android app for a digital printing service with product browsing, order placement, profile management and local SQLite storage.

Core Strengths

- Problem Solving
- Critical Thinking
- Teamwork
- Effective Communication
- Time Management
- Leadership
- Project Management
- Public Relations

Languages

- English: Fluent
- Sinhala: Native
